

## Senior Project Manager

NIS Ltd are a specialist integrated engineering company, providing bespoke design and manufacture of plant and equipment.

We provide a full engineering lifecycle support service ranging from concept, scheme and detail design, through to complete manufacturing readiness. Using the latest technology, our dedicated team of Design Engineers ensure a pragmatic and cost-effective solution to meet the need of all our customers. Our in-house manufacturing capability is renowned throughout the industry for providing high class bespoke fabrications and assemblies. Our highly skilled and hardworking workshop colleagues, Engineers and Technicians work to precise specifications to achieve customers individual requirements on a multitude of projects.

We are now recruiting for a Senior Project Manager who will safely deliver projects on time to the specified Contractual requirements, whilst maintaining quality and cost.

### About the Role

The role of the Senior Project Manager is to deliver assigned projects to time, cost and quality requirements, compliant with NIS processes and client requirements, predominantly in the nuclear sector.
